OVERVIEW

Capitol Trading Services is a trading academy currently offering a 16-day meticulously in-house developed Global Macro Trading program, with training facilities in both Singapore and Bangkok, ideal for anyone seeking a second stream of income or for individuals interested in trading for a living.

• Overview

Our 16-day training program (one week and two full weeks) will teach you how to master the rules of trading, risk management, charts, order flows, economics and other relevant knowledge you'll need in order to succeed in the Global Macro Trading arena.

This training program is taught by our Head Trainer, Main Technical Advisor for a well-known Hedge Fund Manager. He has a proven track record and experience of six years on trading in Hedge Fund for major investment management firms (AUM more than USD 4 Billion dollars, names to be disclosed upon request).

During the course, you will be provided with your own fully equipped trading desk where you'll be trained and coached for four weeks. You will practice various trading strategies either on a simulator (with the same conditions as in reality) or for real, once ready for it. Your positions and decisions made on the market as well as P&L will be analyzed and corrected on a daily basis in order for you to become a professional independent trader.

As a follow-up on the training, we offer participants the opportunity to keep in contact online with our trainer and use his expertise for future trades.

Elements

• Who

This course is for individuals seeking to earn an extraincome, trade for a living, become proprietary traders or traders for different entities.

If you are talented enough our trainer will recommend you to Trading Arcades or Hedge Fund. There will also be solutions for backing you up financially in case you are chosen.

A minimum of 4M THB, 150,000 SGD or 100,000 EUR is strongly recommended as assets under management if you are looking to trade for a living.

• Objectives

The purpose of this course is to help you achieve a consistent and profitable track record. Stated below are some of the main objectives with the course:

- Acquire a deeper understanding of macroeconomics and technical analysis.
- Master Futures Trading.
- Replicate and enhance strategies used in Hedge Fund firms.
- Make profit on a regular basis in order to develop an interesting track record to support your profile.

PROFIT

✦ Program

The 16-day Training program "Global Macro" is the result of a meticulous quality oriented designed plan.

Each element has been planned with a clear objective for you to become an independent professional trader.

You will enjoy theoretical and practical classes on a daily basis in our offices covering the following subjects:

- *General Asset classes* – Bonds, Equity Indexes, Futures, Currency, Commodities and ETF's.
- *Macroeconomy* – News and Daily Thematic Thinking.
- *Charting/Technical Analysis* – Main Indicators, Market Profile and how to use them.
- *Global Macro Strategies* – Directional and Relative Value.
- How to choose the right broker for your trading.
- *Define your Trader's Profile* – Expected returns (Risk/Reward).
- *Money Management* – How to protect your profits and losses.
- *Trader's Psychology* – Discipline, Excess or loss of confidence and how to stick to/respect your trading plan.
- *Take a position* on Futures, Stock, Bond, Commodities and Currency markets either on a simulator with real conditions or for real.

trading jobs
